

ISHTIAQ AKANDA

Bronx, NY • (929)-450-9108 • ishtiqa2003@gmail.com • [GitHub](#) • [Portfolio](#) • [LinkedIn](#)

TECHNOLOGIES

Languages: Python, JavaScript, SQL, C, PHP, Scala, HTML5, CSS3

Libraries/Frameworks: ReactJS, NodeJS, ExpressJS

Tools & Testing: REST API, Linux, Git, Github, VMWare, Cloudflare, Tableau, MySQL, phpMyAdmin, XAMPP, Figma

SOFTWARE PROJECTS

US Economic Dashboard (Solo) - [Github](#)|[Deployment](#)

Feb - Mar 2026

*An Economic Dashboard that uses data from the **FRED (Federal Reserve) API**, built with **Express.js** and **React.js**.*

- Engineered a full-stack dashboard that solved the complexity of raw FRED API data by **implementing interactive Chart.js visualizations**, resulting in a streamlined tool for **performing real-time macroeconomic analysis**.
- Developed a custom **RESTful backend using Express** to bridge the gap between **complex government data structures** and a **React frontend**, which automated the data-fetching pipeline.

MangoHub Anime/Manga Dashboard (Duo) - [Github](#)|[Deployment](#)

Feb 2026

*A dynamic frontend application using the **Jikan API**, providing access to a database of anime and manga.*

- Designed a framework-free UI/UX using **Vanilla JS** and **DOM manipulation**, implementing **interactive modals** and **searchable cards** while maintaining a lightweight, zero-dependency codebase.
- Implemented a **lightweight search and filtering engine using Vanilla JS**, resulting in an ultra-responsive interface that maintains instant rendering speeds even when processing **large anime/manga datasets**.

Mahjong Game (5 People) - [Github](#)|[Figma](#)

Feb - May 2025

*An interactive American Mahjong game, with **user authentication**, **leaderboards**, and **multiplayer gameplay**.*

- Led the implementation of front-end features using **ReactJS** and back-end functionalities through **PHP** and **SQL**, resulting in a seamless gaming experience that **supported over 100 concurrent users during class**.
- Overcame the hurdles of real-time state synchronization in a multiplayer environment by integrating **persistent database triggers**, ensuring a **lag-free gaming experience for 100+ concurrent users** during deployment.

EXPERIENCE

Assistant - Susan E Wagner Day School

Bronx, NY | Jul 2023 - Aug 2023

- Supported staff in implementing educational activities and behavioral management strategies, contributing to an increase in classroom productivity.
- Facilitated care and supervision of children, ensuring a safe environment that improved student engagement.

Front Desk Data Entry - Safe Medical Care

Bronx, NY | Dec 2020 - Feb 2021

- Streamlined patient data entry processes by accurately **filing over 500 patient records** into the clinic portal, **reducing processing time by 30%** and ensuring compliance with data accuracy standards.
- Coordinated with a team of three front desk staff to manage daily patient check-ins and information updates, achieving a **20% improvement in appointment scheduling efficiency**.

EDUCATION

Software Engineering Fellowship - [The Marcy Lab School](#)

Brooklyn, NY | Sept 2025 - Aug 2026

- Completing 2,000+ hours of intensive coursework in computer science fundamentals, leadership development, and full-stack web application development using the **PERN stack (PostgreSQL, Express, React.js, Node.js)**.

Candidate For Computer Science BA (100+ credits) - **University at Buffalo**

Buffalo, NY | Aug 2021

- Data Structures, Algorithm and Complexity, Software Engineering Concepts, Microeconomic Theory 1, Macroeconomic Theory, Economic Statistics/Data Analysis
